

I believe K-LOVE serves our local community by offering advertising free, positive music and news.

It stands out as something I can allow my child to listen to without fear of what she will be exposed to. The message is positive which is something that I believe might be lost if this station goes off the air.

The public deserves a positive, commercial free voice on the radio and I urge you to keep them as a priority when deciding how to allocate space on the airwaves.

Sincerely,

David Knight
